calculation ; but since they are usually disposed of by sale at the annual jamabandi, and the village officers are not called upon to collect them, it follows that no Potgi is due to them on these amounts.

4. As regards "contributions" (item No. 3 above), by their nature, they are not permanent like land revenue and cesses. Hence the annual Potgi cannot be increased on their account. It has been urged some times (D. R. A. discussions, for example) that village officers help in their collection and should therefore be paid for their services. I am not concerned to deny this and am prepared personally to admit that the Government may sanction in special cases, a commission for their collection in addition to the annual Potgi whenever the amount involved is large or spread over a number of years or for any other valid reasons. But what I urge is that it should not be mixed up with the annual potgi paid for collection of the *permanent* revenue.

5. Further, Rule XV is not happily worded and its meaning is wrapped in obscurity. It speaks of "the assessment of the occupied Government land" being "taken for the calculation" of the Potgi ; whereas, the basis is not merely the assessment proper, but the assessment plus various other items, such as, cesses, jodi and quit-rent. To this, a tenth of the assessment of the assessed waste land of the village is also added under certain circumstances. The rule, as it stands, is not only thus defective, but proceeds elaborately to provide that "the assessment on occupied land plus 10 per cent of the assessment on the assessed waste, should not exceed the gross assessment of the land of the village" as though such a result can be arithmetically possible. To make the sense of this rule clear and to make it accord with the long-standing Departmental practice, I propose that it may be recast as follows:—

"(*a*) The gross revenue demand of the village in the year in which the settlement of remuneration of the village officers is made, will be taken as the basis for the calculation of the remuneration of officiators.

(*b*) To this, ten per cent of the assessment on the assessed waste Government land will be added in cases where the said demand falls short of the gross assessment of *all* the Government land of the village, occupied and waste, but not so as to exceed the same."

6. Finally, I beg to bring to the notice of Government that the present procedure as to the periodical revision of the Potgi is unnecessarily cumbrous and leads to mere delay without corresponding benefit. The basis for calculation of Potgi is fixed by rules framed by Government ; so is the scale and the method of appropriation of the emoluments from service Inam lands, etc. The rest is a mere matter of calculation. In these circumstances, the Survey Superintendent may well be left to prepare and issue the statements direct to the District or Taluk, without asking for the "sanction" of Government or the Revenue Commissioner in each case. It is not even the case that the calculations are checked in either of these Offices ; the "sanction" is a purely formal affair. I therefore suggest that it may be done away with altogether.

ANNEXURE No. II.

Note No. T. 14—25-26, dated, Camp Mysore, 1st October 1925, by the Revenue Commissioner in Mysore.

I have no objection to the Survey Superintendent's proposal to make the rules clearer.

In addition to the items mentioned by him as, V (a) in para 2 of his letter necessary to include 'Hulbanni and Amrayi' based on the average of three preceding the revision, and also "temporary assessment and water-rate" inc under Revenue Miscellaneous. Even though Hulbanni and Amrayi are s auction, the collection is ordinarily made by the Patel and Shanbhog.
